

CLASS B

 COMFORT FUND

OVERVIEW

This is our lowest risk fund. The fund's objective is to deliver a 6.5% target return to shareholders by maintaining a diversified lower-risk mortgage portfolio.

This approach is designed to provide consistent returns and long term financial growth secured by residential properties across Ontario.

Participating shareholders can choose to collect monthly cash payments, or re-invest their dividends for faster growth.

Some eligibility requirements apply.

FAQs

WHY DO CANADIANS TYPICALLY BORROW FROM HOSPER MORTGAGE?

Common reasons include:

- To purchase a new home or investment property
- Debt consolidation (combining a number of unsecured debts into a single monthly payment)
- Renovations of an existing property
- As a down payment to purchase a second property, or to bridge a gap between the purchase and sale of a principal residence
- Family debt & divorce
- Business investment (banks are particularly stringent when lending to business owners)

WHY IS THE BORROWER NOT BORROWING FROM A BANK?

- The borrower has an urgent need of the funds and the bank's process is too slow; Hosper MIC can fund in 48 hours
- The client is locked into a longer term mortgage, and the penalties to break the current bank mortgage are significant
- Occasionally applicants are not willing to satisfy all banking conditions (i.e. a bank may require the applicant to close other credit facilities, discharge other encumbrances on the property, etc.) and the applicant may prefer not to comply with these requirements
- The most common reason a homeowner may borrow from Hosper MIC is because they have been declined by the bank; this could be a result of recently damaged credit or challenges to meet the bank's requirement for income ratios.

Whatever the reason may be, Canadian banks have increasingly tightened criteria which has resulted in more Canadians borrowing money from alternative lenders.

HOW IS MY INVESTMENT PROTECTED?

As an investor in Hosper MIC, you hold Preferred Shares which entitle you to a pro rata share of the profit generated by the MIC. By design, all profits must be distributed to preferred shareholders each year. Your Preferred Shares also represent your share of ownership of the overall mortgage portfolio. Collectively, the preferred shareholders own the entire mortgage portfolio. All mortgage loans advanced by Hosper MIC are secured by real property in Ontario. Hosper MIC's portfolio is comprised of numerous mortgage loans across Ontario, providing tangible collateral for the MIC's mortgage loans. In addition to a registered charge on the title of the property, Hosper MIC is also the beneficiary of two types of insurance: Fire Insurance and Title Insurance.

To compliment these protections, Hosper Mortgage also has a full-service administration team to manage these loans throughout their term. This naturally serves to mitigate risk as the Hosper Mortgage team is in constant contact with the brokerage who arranged this loan with the borrower. Hosper also has the resources to contact the borrower directly should there be any issues throughout the term of the mortgage.

WHEN WILL I RECEIVE DIVIDEND PAYMENTS? HOW DO I RECEIVE DIVIDEND PAYMENTS?

Hosper MIC distributes dividends to shareholders on a monthly basis with our fiscal year end occurring on September 30. Investors may elect to receive cash dividends or enroll in the Dividend Re-Investment Plan (D.R.I.P.) which pays additional shares in the place of cash dividends. DRIP enrollment leads to a higher investment yield as the monthly dividends result in compound growth. The cash dividend target annual return for this share class is mentioned within this document.

CAN I USE MY RRSP, LIRA, RESP, AND/OR TFSA ACCOUNTS TO INVEST?

Yes, Hosper MIC is eligible for all registered accounts. Hosper MIC has been approved for deposit by Olympia Trust Company. Hosper works with this trust company to facilitate investments in tax sheltered accounts.

HOW IS MY INVESTMENT TAXED?

For registered investments (RRSP/TFSA etc.) your trust company will provide your annual tax reporting documents. Since these accounts are tax sheltered, you will not be required to pay tax on the income in the current tax year. For Non-Registered investments Hosper MIC will provide a T5 statements to each investor.
